## Descrizione

**Fondazione AGIRE**, the Innovation Agency of Southern Switzerland, is a public-private partnership established in 2011 that promotes local innovation, entrepreneurship and economic competitiveness leading to the creation of high-skilled jobs.

**Euresearch**, is the Swiss network mandated by the State Secretariat for Education, Research and Innovation, to support Swiss participation in international research programmes. The network is composed of a Head Office located in Bern and several Regional Offices, providing targeted information, practical and tailored support and advice. The Regional Office Lugano supports all interested participants in Ticino, coming from industry, SMEs, Start-Ups, as well as researchers from the University and the HES.

**Commission for Technology and Innovation CTI** is the federal innovation promotion agency responsible for encouraging science-based innovation in Switzerland by providing financing, professional advice and networks. By helping to transfer research results into concrete marketable products, the CTI helps to improve the competitiveness of Swiss businesses, particularly SMEs, thereby contributing to a strong, innovative economy in Switzerland. From 2018 on, the CTI commission will be transformed into Innosuisse.
